

# ALANAH JARVIS

WATER ARTIST  
Bayside, Melbourne

Alanah Jarvis is an Australian water artist whose oil paintings are collected across the world.

An essential element to life, water heals, hydrates and hypnotises us with its large oceans and turquoise tropical colours. It supports us while we swim and the rain clears the air we breathe.

As a washed-up Scuba Instructor, (pun intended) Alanah knows firsthand of the tranquillity that being in, near, under or on water can have on our senses and moods and she hopes to reflect this serenity and sense of calmness in her work that has been described to encompass abstract into reality.
